

Let Your Data Grow[®]

Stat One has worked with clients on COVID-19 related products and indications. This includes diagnostic products, interventional trials, population-specific safety, and exploratory studies.

Focused Approach

Stat One emphasizes study design and analysis based on FDA guidance for COVID-19 products including:

- Use of randomized controls whenever possible
- Proper endpoint selection based on the patient setting, production, and possible indication

Experience in COVID-19 Patients

- Diagnostics
- Interventional trials
- Population specific safety studies
- Exploratory studies

As our clients have experienced, the FDA has been fast in dealing with COVID-19 related projects.

Stat One prioritizes client work when necessary to provide quick and accurate analyses and responses to questions.
